BEHIND THE PLATFORM

INSIDE NETFLIX'S CONTENT LIBRARY

8,807 Titles | Two Content Formats

- 6,131 Movies — 69.6% of the catalog
- 2,676 TV Shows — 30.4% of the catalog

Movies account for the larger share of Netflix's catalog, representing nearly 70% of the analyzed titles.
Key Insight: The catalog is predominantly movie-based, while TV Shows represent around 30% of the content.

EXPLORING THE CONTENT BEHIND THE PLATFORM

WHAT GENRES DOMINATE?

International Movies Lead the Catalog

- International Movies: 2,752 titles
- Dramas: 2,427 titles
- Comedies: 1,674 titles

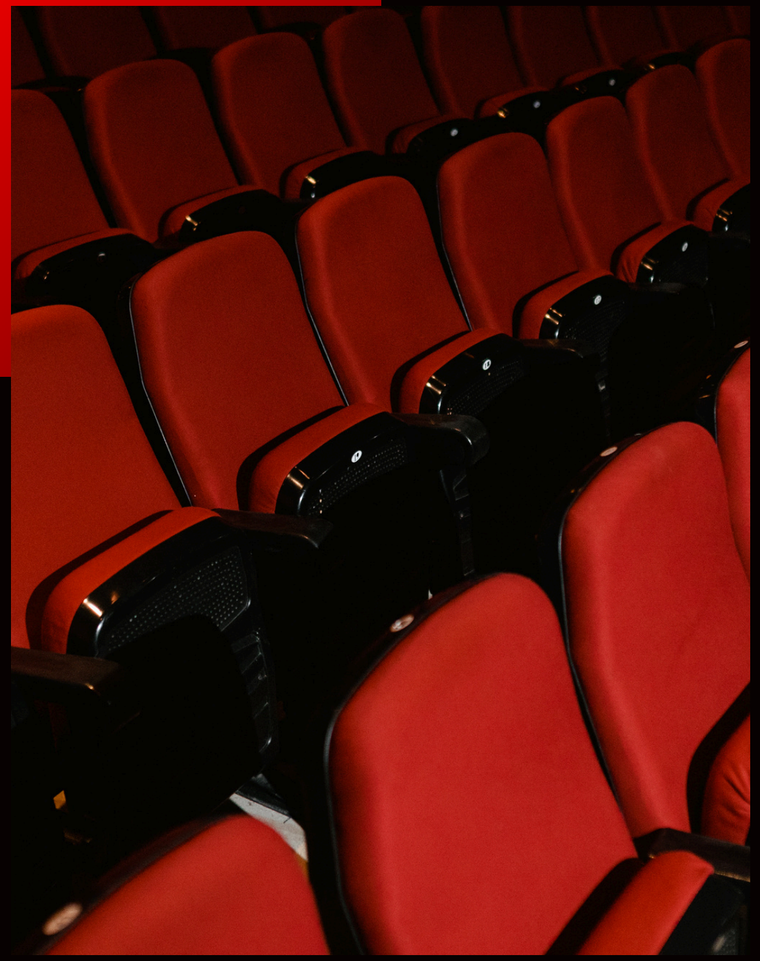

International Movies and Dramas are the most represented categories in the genre analysis.

Key Insight: Netflix's catalog includes a strong representation of international content and drama.

Note: Genre categories can overlap because a title may belong to more than one genre.

UNDERSTANDING CONTENT RATINGS

TV-MA Leads Netflix Content Ratings

- TV-MA: 3,211 titles
- TV-14: 2,162 titles

Key Insight

TV-MA is the most common content rating, followed by TV-14. This indicates that mature-audience and teen-oriented ratings represent a significant part of Netflix's content library.

CONTENT THROUGH THE DECADES

Netflix's Catalog by Release Decade

- 2010s: 6,242 titles
- 2020s: 1,635 titles
- 2000s: 608 titles
- 1990s: 240 titles
- 1970s: 52 titles

Key Insight

The 2010s represent the largest release-decade category in the dashboard, followed by the 2020s and 2000s.
